Chicago Patrolmen's FCU (Chicago, IL)

We have been with Sentry Security for over 5 years. Their management, office staff, and technicians have always been professional and helpful. One of the things I like is that when I call them a person always answers the phone, I never receive a recording and this is extremely important to me at the times that I need to speak with someone. Their employees are always willing to take the extra step to make sure that our security needs are addressed. Whenever we have a technician working at any of our branches they perform their duties as if this system was their own. I am very pleased with the service and support that we receive from Sentry Security and would never think of placing our security needs in any other company's hands.
